

Your Extra Covered Drug benefit offers more coverage

You have extra drug coverage beyond what Medicare prescription drug plans usually cover. This Extra Covered Drug benefit covers certain cough and cold medications, vitamins, minerals, erectile dysfunction drugs, and select over-the-counter medications with a prescription. You have access to this wider drug coverage, in addition to your medical and prescription drug coverage, through your group Medicare Advantage plan, **Anthem Medicare Preferred (PPO) with Senior Rx Plus**.

Determining costs and confirming coverage on drug lists

Your Extra Covered Drugs are listed in their own document, the *Extra Covered Drugs* list, because we offer these in addition to what Medicare allows us to cover. All other covered prescription drugs are still listed in the *Part D Formulary*.

Both lists show the tier number for covered drugs. You can refer to the benefit chart in your *Evidence of Coverage* to figure out the cost before you fill your prescription at the pharmacy.

If you'd prefer, you can also give us a call at **1-833-285-4630** (TTY: **711**) for assistance determining costs and confirming coverage, 24 hours a day, seven days a week.

Since this drug coverage goes beyond what Medicare allows us to cover, your expenses for these Extra Covered Drug items do not count toward your true out-of-pocket (TrOOP) amounts.

Using your extra coverage at the pharmacy

In order to be covered, the Extra Covered Drugs require a prescription from your doctor. As always, it is important to let your doctor know about any over-the-counter and prescription drugs you are taking.

When you are ready to use your Extra Covered Drug benefit, bring both the item (even if it is available for purchase over the counter) and your prescription to the pharmacy.

Three options to view the *Extra Covered Drug list*
